Demo flightcase for Atellio family - 19" equipment

Product information:

The perfect companion for roadshows and mobile presentations! Are you tired of worrying about the safety of your valuable equipment during transportation? Look no further! This portable display flightcase for the AUDAC Atellio family 19" equipment is here to revolutionize the way you travel with your gear. Crafted with utmost precision, our flight case is constructed from high-quality materials, ensuring exceptional durability and long-lasting performance. The rugged exterior shell shields your equipment from impacts, while the reinforced corners provide additional protection against accidental bumps and knocks.
Also custom-fitted protective foam interior. This foam is designed to cradle your precious gear, securing it in place and minimizing any potential movement during transit. No matter how rough the journey gets, your equipment will remain snug and safe, ready for action as soon as you arrive at your destination.
This demo flightcase also features a built-in trolley system that allows you to effortlessly transport your equipment. The retractable handle extends smoothly, providing a comfortable grip for easy manoeuvring. The sturdy wheels glide effortlessly over various surfaces, making it a breeze to navigate through busy airports, event venues, and city streets.
