WMP40M

Wall mount protection cover for ATEO4M

Highlights:

- Weatherproof synthetic rubber
- Ideal painting cover

Product information:

The WMP40M are protective covers for the mounting and connection plates of the ATEO4M speakers. These protection covers are made out of synthetic rubber. They are being used as a protective cover to protect them when the interior is being painted, to avoid them to be reached by the paint. Due to their durable construction, they also can be used to protect the wall plates in outdoor applications when the speakers are removed off-season while the wall plates remain installed. This avoids dirt and humidity from reaching the critical parts.

Properties:

Weatherproof

Variants:

- WMP40M/B - Black version - Soft rubber

We reserve the right to change specifications without notice, this is part of our policy to continually improve our products.
